

Preparatory Division for Foreign Citizens

The Preparatory Division for Foreign Citizens is recruiting attendees from the neighboring countries and beyond for 2014-2015 academic years on following courses:

- Engineering
- Natural Science
- Biomedical
- Merchandizing

The Engineering course includes the following subjects: Russian Language, Mathematics, Physics and Technical Drawing. Both Natural Science and Biomedical courses include such subjects as Russian Language, Mathematics, Social Theories and History of Russia. Regional Geography and Computer Science are taught at all courses.

After graduating from the Preparatory Division for Foreign Citizens attendees are entitled to enter the following faculties of Voronezh State Agricultural University:

The Engineering course:

The Faculty of Rural Engineering

Major: Rural Engineering

Subjects:

- Technical Systems in Agrobusiness
- Electronic Equipment and Electronics
- Agricultural Sector Technical Service
- Agricultural Produce Processing and Storage Equipment

Qualification: Land Transport and Production Vehicles

Major: Transport and Production Machine and Systems Operations

Subjects:

- Vehicles and Vehicles Fleet

The Land Survey Faculty

Major: Land Survey and Land Cadastre

Subjects:

- Land Survey
- Land Cadastre
- Municipal Land Cadastre

Major: Environmental Engineering and Water Resource Management

Subjects:

- Agricultural Water Supply and Disposal Engineering Systems
- Environment-oriented Landscape Engineering

The Natural Science course:

The Faculty of Agricultural Science

Major: Agricultural Science

Subjects:

- Agricultural Science
- Crop Artificial Selection and Genetics
- Crop protection

Major: Agricultural Chemistry and Soil Science

Subjects:

- Agricultural Chemistry and Soil Science
- Agricultural Ecology

Major: Horticulture

Subjects:

Landscape Gardening and Design

Horticulture and Grape Production

The Faculty of Technology and Merchandizing

Major: Crop Processing and Production Technology

Major: Botanical Products

Subjects: The Technology of Fatty Substances, Oils and Cosmetics

The Biomedical course:

The Veterinary Science and Animal Breeding Faculty

Qualification: Veterinary Science

Major: Veterinary and Sanitary Inspection

Subjects:

- Veterinary and Sanitary Inspection

Major: Animal Science

Subjects:

- Livestock Production technology
- Cynology

The Merchandizing course:

The Faculty of Technology and Merchandizing

Majors: Merchandizing

Subjects:

- Merchandizing and Expert Examination in the Production and Trade of Agricultural Raw Materials and Groceries

After successful graduating of final examinations on the chosen course attendees are given certificate of graduating the Preparatory Department for Foreign Citizens of Voronezh State Agricultural University n.a. Emperor Peter the Great.

Classes start 01.09.2014. The course duration is 10 months (until 30.06.2015)

The cost of courses is 53 000 rubles.
